**Please find below and/or attached an Office communication concerning this application or proceeding.**

The time period for reply, if any, is set in the attached communication.

*Advisory Action*

1. The following is in response to the after final communications received 04/23/08.
2. Applicant's arguments with regards to Hailpern et al. (U.S. 6,922,672) have been fully considered, but they are not persuasive. In the remarks, Applicant argues that Hailpern does not teach or suggest accepting, via computer, transaction parameter values for composite resources, wherein each composite resource has associated therewith at least a service location and at least one of a service date and a service time or a date/time transaction parameter.

In response to this argument, examiner points out that the claim limitation recites "at least one of a service date and a service time" and thus requires these in the alternative. Hailpern et al. does teach and suggest that parameter values are received from a business. These parameters represent the promotional or other deal with which the resource is being sold. Further, the location of the resource is specified as well as the time period for the transaction to occur. See at least column 2, lines 37-40 and 59-65, column 3, lines 1-5, 22-25, and 50-67, column 4, lines 20-45, column 5, lines 1-6. Thus, Hailpern et al. does teach and suggest the requisite service location and **at least one of** a service date and a service time.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Beth Van Doren whose telephone number is 571-272-6737. The examiner can normally be reached on M-F, 8:00-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tariq Hafiz can be reached on 571-272-6729. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
